The people of the ancient times on the basis of their observations of the sun believed that it was moving round the earth. But their hands will speak to us, and their feet bear witness, to all that they did.If it had been our Will. We could surely have blotted out their eyes; then should they have run about groping for the Path, but how could they have seen?And if it had been Our Will. We could have transformed them (to remain) in their places; then should they have been unable to move about, nor could they have returned (after error).If We grant long life to any. We cause him to be reversed in nature: Will they not then understand?We have not instructed the (Prophet) in Poetry, nor is it meet for him to be less than an utterance clear: That it may give admittance to the earth (whenever) alive, and that the charge may be proved against those who reject (Truth). See they not that it is We Who have created the trees,AAÁ among the things which Our hands have fashioned,AAÁ cattle, which are under their dominion?And that we have subjected them to their (Yaseen)First, in popular regions, which could serve as food for ravenous. We have fastened the argument of every man to his own neck. It is are also involved the so-called rationalists of today and in it have been involved the deniers of revelation and Prophethood of every age since the earliest times. A License may be deprecated; provides the date deprecated on. As to boarding of the progeny of man in it, it means that although apparently a few companions of the Prophet Noah (peace be upon him) had boarded it, in reality all human beings who are to be born till Resurrection were boarding it; all the rest of mankind had been drowned in the flood, all later human beings are the children of those who were rescued in the Ark.This indicates that the first Ever to do in the world was the fact by the prophet NoÁ © (La Paz is with him). Despite this immensity, the solar system occupies a very insignificant part of a great galaxy. (For a detailed more explanation, see Surah Ash-Shura, Ayats 224-227 and the E.NS). A living person means: each person who is able to think and understand, that it is not like a stone, who neither hears nor understands nor moves from his place, however, rationally and with sympathy, one can explain the distinction between the truth between the truth and falsehood and give the warning to him. That is to say: Are these people so ungrateful and ungrateful that they do not thanks to that God who has provided all this for his survival, but thanks the other for the blessings and favors made by him? (Surah Yaseen) that is, if you had been deprived of reason and would have served your enemy instead of your seper, it could have the reason to offer an excuse. Precisely, the same used to say the uncertainty and the hyposses of Arabia about the prophet (La Paz is with him); if they suffer a paid, they say: this is for you. (Surah An-Nisa, Ayat 77). If one analyzes it, one will see that there are some important factors without which the world could not have emerged (Surah An-Nor, Ayat 24) Then, when everyone will have arrived there, their eyes and their own skins will testify again, The complete record of good and the bad training that gives their children, the good or evil that has disseminated in society, and its impact on humanity as a whole, will continue to be maintained until the moment in which the continuing producing the producing the Good or evil results in the world. (Surah Yaseen) Now the speech reverts to the basic that was the real cause of the conflict between them and the prophet (La Paz is with him), that is, the doctrine of Tawhid and In the future, the Prophet (peace be upon him) was presenting and the unbelievers refused to accept. If a person sees an evil, it is for his own self, and if he sees a good, it is also for his own self. The basic composition of the matter itself has been possible due to the close affinity between the positive and negative electrical charges. This law of the pairs which is the basis of the existence of the whole universe contains in itself such complexities and finests of wisdom and labor, and there are such harmony and mutual relations among the members of each pair that an objective observer cannot consider it as the result of an accident, nor can he believe that many different gods could have created these countless pairs and paired to their members, one with such great wisdom. (Surah Yaseen) "Shackles" in this verse implies their own stubbornness that prevented them from accepting the truth. It had not been asked to find the exact date of the arrival of the Beyond. The same was the vision of Makkah's unbelievers. Another thing that has been mentioned in this regard is that Antioch was the king of this land at that time. Or, God will not, Allah has the weaknesses of worldly kings, because of which he is surrounded by an army of ministers, courtiers, halagos and beloved princes or princesses, and so many powers of God have been divided among them. (surah Yaseen pdf)This may have two meanings:(1) Beware of the righteous believer; for in the world even if you belong to the same community and to the same clan and to the same brotherhood, here you have no connection and relationship with them. (2) Move away from one another: now you can't remain a group anymore. The vegetation of the world is of many different species, but in countless species, and they were so made that they must comply with it.
